SEDDAM TARUN THEJA

Ongole, Andhra Pradesh, India | +91-7989470772 | siddemtharunteja@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Detail-oriented Computer Science & Engineering undergraduate at QIS College with hands-on proficiency in Python programming, Object-Oriented Programming (OOP), and full-stack software development. Proven experience in designing scalable backend architectures, implementing RESTful APIs, and optimizing relational MySQL database schemas. Adept in Data Structures, Algorithms, and clean code principles, backed by verified virtual internship experience with EduSkills building end-to-end Python web platforms. Seeking a Python Developer or Software Engineer role to engineer reliable, production-ready systems.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript (ES6+), HTML5, CSS3
Frameworks & Web: Django, RESTful APIs, Bootstrap, Responsive Web Design
Databases & Tools: MySQL (Schema Design, Query Optimization, Joins, Indexing), Git, GitHub, VS Code, Google Colab
Core CS Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Relational DBMS

TECHNICAL PROJECTS

AI Interview Platform — **Python, JavaScript, HTML5/CSS3, MySQL, REST APIs**

- Engineered an automated interview simulation platform enabling candidates to configure customized role-based practice rounds across 11 technical career tracks.
- Built browser-level real-time hardware diagnostics for camera readiness and microphone audio input verification.
- Architected dynamic sequential Q&A pipeline with browser speech synthesis readouts and securely persisted candidate response logs in MySQL.

Leftover Food Recipe Generator — **Python, MySQL, HTML5, CSS3, JavaScript, Responsive Design**

- Designed a web recommendation system matching on-hand kitchen ingredients to recipe workflows to reduce domestic food waste.
- Architected normalized MySQL relational tables and wrote indexed lookup queries retrieving step-by-step cooking instructions with low latency.
- Engineered multi-category ingredient filtering (vegetables, proteins, spices, grains) with instant client-side tag selection.

AI Calls & Emergency Data Analytics Dashboard — **Python, MySQL, HTML5/CSS3, JavaScript, Chart.js**

- Developed an interactive dashboard visualizing multi-district emergency dispatch call records across Andhra Pradesh.
- Segmented incident logs by classification (Crime, Traffic, Medical) and rendered temporal trend charts to assist dispatch decision-making.

INTERNSHIPS & JOB SIMULATIONS

Python Fullstack Developer Virtual Internship — **June – August 2026 (8 Weeks)**

EduSkills Foundation (Supported by AICTE & Ministry of Education)

- Constructed end-to-end Python full-stack modules connecting responsive frontend interfaces to relational database backends.
- Implemented RESTful API endpoints, request handling, and database connection pools; evaluated with Grade O (Outstanding: 90–100).

Web Full Stack Developer Virtual Internship — **April – June 2025 (10 Weeks)**

EduSkills Foundation (Supported by NEAT Cell, AICTE)

- Completed hands-on practical training in responsive web design, semantic HTML5, modern CSS3 layouts, and Git version control.

Data Analytics Job Simulation — **April – May 2026**

Deloitte (Issued by Forage)

- Executed practical corporate tasks in enterprise data analysis and forensic technology investigation.

EDUCATION

B.Tech in Computer Science and Engineering — **2023 – 2027**
QIS College of Engineering and Technology, Prakasam | ***CGPA: 7.33 / 10.0***

Intermediate (MPC) — **2021 – 2023**
Sri Chaitanya Junior College | ***Board Score: 80.5%***

CERTIFICATIONS & COURSEWORK

- **Python Programming** — Microsoft through Skill India Digital Hub (40 Hours Verified Coursework)
- **Front-end Web Development** — Reliance Foundation Skilling Academy / Skill India (240 Hours Intensive Curriculum)
- **Data Analytics with Python** — NPTEL • IIT Roorkee / Swayam (12-Week Rigorous Course · Elite Grade · 67%)
