SEDDAM TARUN THEJA

Ongole, Andhra Pradesh, India | +91-7989470772 | siddemtharunteja@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Analytical Computer Science & Engineering undergraduate at QIS College with hands-on proficiency in Exploratory Data Analysis (EDA), statistical modeling, and data visualization using Python and SQL. Experienced in processing large-scale incident and financial datasets, developing predictive time-series forecasting models, and crafting actionable dashboards. Holds verified credentials from NPTEL (IIT Roorkee, Elite 67%) and Deloitte/Tata Group in enterprise analytics simulations. Seeking a Data Analyst / BI Analyst role to derive impactful intelligence from complex datasets.

TECHNICAL SKILLS

Data & Analytics: Exploratory Data Analysis (EDA), Data Cleaning & Wrangling, Time-Series Forecasting, Statistical Modeling, Predictive Analytics

Libraries & Tools: Pandas, NumPy, Matplotlib, Microsoft Excel (Formulas, Pivot Tables), Google Colab, Jupyter Notebook

Languages & DB: Python, SQL (Complex Queries, Joins, Aggregations, Subqueries, Optimization), MySQL

Visualization & BI: Chart.js, Interactive KPI Trend Dashboards, Incident Hotspot Mapping, Executive Data Storytelling

TECHNICAL PROJECTS

AI Calls & Emergency Data Analytics Dashboard — Python, MySQL, Pandas, JavaScript, Chart.js, Predictive Modeling

- Analyzed emergency dispatch call logs across Andhra Pradesh districts, categorizing records into Crime, Traffic, and Medical emergencies.
- Rendered temporal trend visualizations and district hotspot mapping to support situational awareness and resource allocation.
- Engineered a predictive time-series forecasting script in Python to estimate next-month call surges based on historical trends.

AI Interview Platform (Evaluation & Diagnostics Analytics) — Python, MySQL, JavaScript, Rubric Scoring Architecture

- Architected evaluation telemetry capturing candidate response timestamps and scoring across 8 rubric dimensions.
- Designed normalized MySQL schemas persisting candidate session metrics, difficulty tiers, and diagnostic records.

Leftover Food Recipe Matcher (Query Optimization) — Python, MySQL, SQL Relational Filtering, JavaScript

- Developed relational queries optimizing multi-attribute ingredient filtering and pantry inventory matching with low latency.

INTERNSHIPS & JOB SIMULATIONS

GenAI Powered Data Analytics Job Simulation — April – May 2026

TATA Group (Issued by Forage)

- Executed Exploratory Data Analysis (EDA) and financial risk profiling to predict customer delinquency patterns with AI.
- Synthesized analytical findings into executive business presentations with data storytelling for collections strategy.

Data Analytics Job Simulation — April – May 2026

Deloitte (Issued by Forage)

- Completed practical corporate simulation covering enterprise data analysis, forensic technology, and forensic reporting.

Python Fullstack Developer Virtual Internship — June – August 2026 (8 Weeks)

EduSkills Foundation (Supported by AICTE & Ministry of Education)

- Built data processing pipelines, backend connection pools, and database queries in Python; awarded Grade O (Outstanding).

EDUCATION

B.Tech in Computer Science and Engineering — 2023 – 2027

QIS College of Engineering and Technology, Prakasam | ***CGPA: 7.33 / 10.0***

Intermediate (MPC) — 2021 – 2023

Sri Chaitanya Junior College | ***Board Score: 80.5%***

CERTIFICATIONS & COURSEWORK

• **Data Analytics with Python** — NPTEL • IIT Roorkee / Swayam (12-Week Rigorous Course · Elite Grade · 67% · Roll: NPTEL26CS86S651601730)

• **Python Programming** — Microsoft through Skill India Digital Hub (40 Hours Verified Coursework)

• **Coursework Foundations** — QIS College of Engineering and Technology (Relational Database Management (RDBMS), DSA, Quantitative Analytics)
